

Hormonatop CAPSULE

NPN 80031920

85 CAPSULES

HORMONE IMBALANCE
Discomforts of menopause

264 mg/CAPSULE

Composition				
Black Cohosh	root	<i>Actaea racemosa</i>	48 mg	Organic
Blessed Thistle	flower and leaf	<i>Cnicus benedictus</i>	48 mg	Organic
Chaste Tree	fruit	<i>Vitex agnus-castus</i>	48 mg	Organic
Lady's Mantle	flower and leaf	<i>Alchemilla vulgaris</i>	48 mg	Organic
Licorice	root	<i>Glycyrrhiza glabra</i>	48 mg	Organic
False Unicorn	root and rhizome	<i>Chamaelirium luteum</i>	24 mg	Organic
Vegetable cellulose capsules				

DOSAGE

INTERVENTION: 4-6 capsules, 2 times per day.

TREATMENT: 3-4 capsules, once a day for 6 weeks. Repeat as needed.

DIRECTIONS FOR USE

Take 30 minutes before meals or at bed time with a little warm water or herb tea. If capsules are difficult to digest, take with meals. For long-term treatment, take 6 days out of 7.

MODE OF ACTION

Hormonatop is used to restore hormone balance and tone the organs of the female reproductive system. Hormonatop relieves the discomforts of menopause such as hot flashes, night sweats and anxiety. It reduces nervous symptoms caused by hormone imbalance, tones the uterus and relieves smooth muscle spasms of the abdomen. Black cohosh and chaste tree regulates estrogen and progesterone levels, which in turn relieves premenstrual and menopausal symptoms. When used over many menstrual cycles, it relieves painful periods and nervous tension as it normalizes cycles and reduces excess bleeding.

It strengthens the adrenal glands whose proper functioning is essential during the hormone changes of menopause.

BLACK COHOSH: normalizes estrogen levels, has an antispasmodic action and calms nervous irritability. It is especially efficient for irritability caused by hormone imbalance and calms all nervous troubles due to PMS and menopause. Black cohosh is also a tonic of the uterus and reproductive organs.

BLESSED THISTLE: as a tonic herb, blessed thistle is good for all gynecological troubles, particularly when there is congestion in the reproductive organs.

CHASTE TREE: increases the quantity of progesterone by inhibiting the secretion of prolactin. Chaste tree reduces premenstrual syndrome, regulates the menstrual cycle and unusual uterine bleeding. It is also used for ovarian failure and infertility. It helps reduce the symptoms of menopause by restoring the estrogen/progesterone ratio.

LADY'S MANTLE: is astringent and reduces excess menstrual bleeding. Lady's mantle is a woman's ally as it repairs and tones tissues of the reproductive system.

LICORICE: is anti-inflammatory, antispasmodic and acts on the endocrine system, especially on the adrenal glands. Licorice is used for various gynecological troubles (PCOS, infertility, etc.).

FALSE UNICORN: tones and decongests the female reproductive organs and balances hormone levels. False unicorn relieves menstrual troubles and the hot flashes of menopause. It also treats cysts, fibroids, endometriosis and infertility.

HELPFUL ASSOCIATIONS

RED RASPBERRY infusion for all troubles of the female reproductive system.

MENSTRUUX for menstrual cramp.

MOON TEA to relieve menstrual cramps and nervous tension.

SAGE or **YARROW** tincture for hot flashes.

SHEPHERD'S PURSE for excess menstrual flow.

SKULLCAP for anxiety and nervous tension caused by hormone imbalance.

ETHNOBOTANY

Female reproductive system: irregular period, excess blood flow, premenstrual syndrome, infertility, hormone imbalance following the use of oral contraceptives.

Menopause: hot flashes, night sweats, irregular period, excess blood flow, dryness of the vagina, irritability, anxiety.

CONTRA-INDICATIONS

Consult a health-care practitioner if symptoms persist or worsen, if breastfeeding or if you suffer from liver troubles or if they manifest, if you suffer from cardiovascular or kidney problems. Do not use during pregnancy or if allergic to herbs of the daisy (composite) family.

INTERACTIONS

Do not use with prescription drugs, including oral contraceptives and laxatives.
