

Sinustop CAPSULE

SINUSITIS
Nasal congestion

NPN 80019060

85 CAPSULES

325 mg/CAPSULE

Composition				
Burdock	root	<i>Arctium lappa</i>	82 mg	Organic
Cayenne	fruit	<i>Capsicum annuum</i>	16 mg	Organic
Turmeric	rhizome	<i>Curcuma longa</i>	32 mg	Organic
Juniper	berry	<i>Juniperus communis</i>	65 mg	Organic
Marshmallow	root	<i>Althaea officinalis</i>	65 mg	Organic
Parsley	root	<i>Petroselinum crispum</i>	65 mg	Organic
Vegetable cellulose capsules				

DOSAGE

INTERVENTION: 3-5 capsules, 2 or 3 times a day, maximum 1 week.

TREATMENT: 2-4 capsules, 1 or 2 times a day, for 4 weeks.

DIRECTIONS FOR USE

Take capsules on an empty stomach, with a little warm water or infusion. Take with meals if they are hard to digest. Start with a small dose to insure herbs are well tolerated.

MODE OF ACTION

Sinustop is used to relieve congestion and inflammation of the sinuses. Emollient and vulnerary, this herbal compound has an appeasing, refreshing and healing effect on irritated mucus membranes. It reduces inflammation and pain and decongests the sinuses. Sinustop capsules stimulate blood and lymph circulation, thereby increasing the quantity of nutrients in the tissues, which promotes healing. Sinustop is used to relieve nasal congestion in acute or chronic sinusitis and seasonal allergies. This compound is antiseptic and helps fight infections. Use the maximum intervention dose along with other antimicrobial herbs to increase its action on acute sinusitis.

BURDOCK: a blood and lymph purifier. Burdock improves circulation of the lymph, thereby contributing to tissue health. It is refreshing and diaphoretic and soothes dryness and irritation caused by fever.

JUNIPER: rich in volatile oils, juniper is an antiseptic and a decongestant. Its anti-inflammatory and analgesic properties help reduce symptoms of sinusitis and allergies. Juniper is also antimicrobial and a blood purifier.

MARSHMALLOW: a major emollient herb. Its mucilages form a protective covering on the mucus membranes. Used whenever there is dryness, irritation and inflammation of the mucus membranes. Marshmallow root is also expectorant.

PARSLEY: antimicrobial and expectorant, it helps eliminate mucus from the sinuses.

TURMERIC: an exceptional anti-inflammatory, it acts on inflammation of the respiratory tract lining. Turmeric is antibacterial, antifungal and supports hepatic function.

CAYENNE: decongestant and antibacterial, cayenne also promotes blood circulation. As an analgesic, it is interesting for headaches caused by an infection. It helps clear the airways and it increases the actions of the other herbs in this compound.

HELPFUL ASSOCIATIONS

GOLDENSEAL capsules for acute sinusitis.

REISHI tincture to prevent seasonal allergies.

CAYENNE powder for nasal congestion.

NETTLE tincture for seasonal allergies.

ASTRAGALUS capsules for troubles of immunity.

PLANTAIN SYRUP for rhinitis.

TURMERIC powder or capsules for runny nose and sinusitis.

ETHNOBOTANY

Immune system: cold, flu, earache (prevention and treatment), viral infection.

Respiratory system: respiratory tract infection, allergies, asthma, itchy and stuffy nose, acute sinusitis, chronic sinusitis, nasal congestion and runny nose.

CONTRA-INDICATIONS

Do not use during pregnancy or breastfeeding, in cases of kidney troubles or allergies to herbs of the Asteraceae family. Consult a health care practitioner if symptoms persist or worsen, in cases of inflammation, stomach ulcer or obstruction of the bile duct. Hypersensitivity may occur; in which case, discontinue use.

INTERACTIONS

Avoid taking simultaneously with prescription drugs, including anticoagulants.
